The Shenandoah legacy product lines are made up of door styles, finishes and wood species that are currently on display in many Lowe's showrooms. These products are only manufactured on a limited basis. These limited runs mean that legacy product lines are subject to extended lead times (6-8 weeks) and all plywood construction is required. In addition, given the limited product runs, each consumer will be called to confirm their order is correct before we begin construction. After the order is confirmed, changes to the order will not be accepted. Rest assured our industry leading warranty and service will remain the same on these product lines as on all of our products.

**Bold gray font indicates new legacy door styles**
